R U Y

DESIGNED BY
SÉRGIO BATISTA

Created through the fusion of innovation and sophistication, the new version of the Ruy sofa takes the concept of comfort and design to a new level. With a wooden detail at its ends, it combines the natural beauty of wood with the coziness of upholstery. This blend of contrasting elements is not just aesthetic; it embodies the fusion between nature and comfort, sophistication and authenticity.

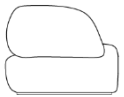

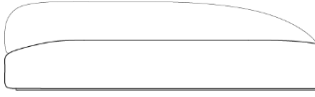

STRUCTURE

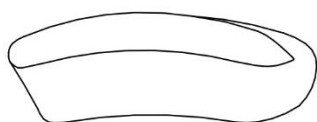

The Ruy Sofa has a complex structure which ensures comfort and an unique look. The structure is a combination of solid wood and recyclable materials, making this piece water resistant and safe for outdoor areas. The upholstery is water proof and contains specific outdoor fabric.

FINISHES/COATING

Finishes and coatings are available as specified in the price list. A wide variety of options is offered to create unique and distinctive pieces."
